

Dear Parent/Guardian;

Thank you for trusting us in evaluating your child for ADHD (Attention deficit Hyperactivity Disorder). In order to gather all the important history it is important that you have all the ADHD packets are filled out completely. We ask that you wait until you have completed the checklist prior to making the appointment. If you think that there is another person in the family who spends a lot of time with your child you may make an additional copy of the Vanderbilt parent questionnaire and have them fill out one as well.

ADHD Check List

1. Vanderbilt Parent Questionnaire
2. Vanderbilt Teacher Questionnaire(2 teachers if possible)
3. Teacher's narrative(summary of classroom behavior and interventions, learning patterns, and functional impairment)
4. Copies of report cards and samples of schoolwork
5. Review of school-based multidisciplinary evaluations (if such evaluations have been performed) i.e. IEP meetings
6. CoGAT scores (if available)
7. Intake Form

Thank you and we look forward to the meeting.

Sincerely,

Whole Child Pediatrics
